Welcome to the Regional Conservation Partnership Program (RCPP) pre-proposal application tool. A step-by-step guide is available on the RCPP website.

Simply fill out the data then click the "Submit" button on each tab (this ensures the data are in the correct format). If correctly formatted, the entry boxes turn grey, the indicator box at the bottom of the tool turns green, and the tool advances to the next. If you use Microsoft Outlook as your default email client your application will automatically be sent with no further steps.

If you, on the other hand, prefer to use a different email client such as Gmail, Yahoo, etc. please follow the prompts to save the application file to a convenient location and attach it as an email along with the .jpeg image of your project area map and .pdf of your narrative as described in the Announcement of Program Funding. These must be attached even though they were uploaded via the application. Send the email to rcpp@wdc.usda.gov.

Thank you,
The RCPP Staff

Next Tab

If you would like to load a partially complete application from a "partialApp.rcpp" file created earlier, please browse for the file below, then load the values using the "Load File" button

Browse

Load File

If an application must be saved before completion, simply click the "Save Application" button below at anytime. A text file will be created which allows you to load the partially complete data automatically at a later date.
